In each study the recitations are daily, unless otherwise indicated.

It will be seen from the above plan that there are three regular recitations of each class daily, and on one day of each week four. Each recitation lasts one hour. The Students recite every day throughout the College year, (Sundays included) at 6 o'clock. A. M.

A Merit Roll is kept by the Instructor, on which is noted the value of each recitation, and the result at the close of each week is entered upon a permanent record, and publicly announced in the Chapel.

EXTRA STUDIES.

Vocal Music and Drawing are taught to voluntary classes at an extra charge.

Irregular Students.

Students may, under the control of the Faculty, pursue such studies of the Term as may be selected by their parents or guardians, in connexion with the classes regularly pursuing those studies. But no Student may, without express permission of the Faculty, have more or fewer than three recitations daily, and none will be permitted to graduate who have not gone through the whole of the regular course.

Course of Studies for Resident Graduates.

Resident Graduates are entitled to pursue any studies of the course in connexion with the regular classes, gratuitously. Instruction will also be given them in advanced branches by the different Professors, as may be found desirable.

Sabbath-day Instruction.

All the Students are required to recite a Bible lesson on the Sabbath, at 6 o'clock, A. M., and to attend Divine Service, at 3 o'clock, P. M.

Departments of Instruction.

Each Professor has the charge and control of all the instruction in his own Department as well in the Preparatory Course, as in the College Classes.

Admission.

Applicants for any advanced standing must sustain an examination on the various branches to which the classes which they propose to enter have attended.

Testimonials of good moral character are required. If the applicant has been a member of another College, he must bring with him a certificate of having been regularly dismissed, free from censure.

Literary and Scientific Societies.

There are two Literary Societies connected with the University, the Athenian and Philomathean, each of which has a Hall and Library, in which students are trained to habits of extemporaneous speaking, and to the proper modes of conducting business in deliberative assemblies. The Union Literary Society, consisting of younger students, has been recently formed, and has made the commencement of a library and cabinet of minerals. There is also a Natural History Society, the object of which is to promote a spirit and taste for the different branches of physical science.

Public Exercises.

At the end of the winter term, the Athenian and Philomathean Societies have a public contest, and the Union Literary Society, and the Junior and Sophomore Classes have each an exhibition.

At the end of the summer term, besides the commencement exercises, the Athenian and Philomathean Societies, the Cuvierian Society and the Society of Alumni have each public addresses.

College Terms and Vacations.

The College year is divided into three Terms. The annual commencement is on the first Wednesday of August, after which there is a vacation of six weeks. The first Term commences from and after the expiration of the autumnal vacation, and continues to about the 21st of December, when there is a vacation of two weeks. The second Term begins at the expiration of the winter vacation, and continues until the first Wednesday of April, when there is a vacation of four weeks. After the expiration of the spring vacation, the third Term commences and continues to the commencement.

Expenses.

The expenses of a student will depend much on his habits of economy. The following is a list of necessary items of expense: Tuition is \$10 per Term; Boarding is from \$1.00 to \$1.75 per week; Washing, lights, fuel and bedding from \$10 to \$12 per Term. Hence the necessary expenses of the Academic year, exclusive of furniture, books, and clothes, will be from \$84 to \$112. Tuition fees must be paid in advance; at the commencement of the winter term also about four dollars for fuel.

Parents and Guardians are advised that Students have need of very little spending money. In cases of useless, extravagant, or injurious expenditure, the debts contracted ought not to be paid. It is advised that funds for the use of Students be put into the hands of some judicious friend, or College officer.

Improvements.

The University Buildings have been put in perfect repair, and the grounds have been enclosed and beautified; and other improvements have been made conducive to the health and comfort of Students, and the cultivation of their taste.

The third story of the West building has been fitted up and exclusively devoted to the Department of Chemistry and Natural History. Valuable accessions have recently been made to the several Cabinets in this Department.
